DRIVEWAY AND/OR CULVERT CONSTRUCTION OR REPLACEMENT ORDINANCE

BE IT ORDAINED, by the President of the Board of Trustees of the Village of Cullom this 22nd day of November, 2016, as follows:

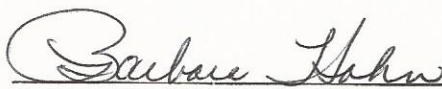

PASSED AND APPROVED in due form this 22nd day of November, 2016, pursuant to a roll call vote as follows:

Section I: **PERMITS:** No person shall construct a driveway or install or replace a culvert without first obtaining a permit from the building inspector for the village. The fee for a for driveway permit shall be \$10.00.

Section II: **SIZE AND LOCATION:** The minimum diameter for a driveway culvert shall be 12". In areas that significant drainage is needed, it may be necessary to install larger culverts. The minimum length is 20' and no more than 40'. Roadways slope from its center to the ditch for drainage. A driveway culvert must be placed deep enough to allow this slope to continue from the center of the road to the center of the driveway culvert. A minimum of 12" of cover must be provided over the top of the culvert, when possible and will be determined on case by case basis. The building inspector or Village Public Works Supervisor or Maintenance Supervisor for the village must approve the proposed size and scope of each project and the installation of same.
